KEY ACTIVITIES

1. Extracting data (GIS) of specific land (Lot no. / Pin point location)
2. Plus, gathering planning guidelines for specific project
3. Contacting local authority via email/online call
4. Renting or complaining public infrastructure

VALUE PROPOSITION

1. Communication: Direct linkage with local governments through chatbox
2. Simplifying Design Process: Easy to find set of data, rules and regulations of each local government
3. Reconditioned Data: Well equipped with new data from latest updates
4. Transparent government; identifying who and where the workflow process is at
