

NEXSCHOLAR APP

A Social Network for Empowering Research and Innovation

EXPERTISE-BASED MATCHING

For industries, this means pinpointing academic professionals whose research aligns with their needs; for academics, it translates to finding industries eager to invest in and benefit from their expertise.

COURSE ENROLLMENT

NexScholar boasts an exhaustive list of courses offered across participating institutions. This ensures students can easily find and compare courses relevant to their academic trajectory.

EXPERTISE-BASED MATCHING

Institutions can target specific demographics, ensuring the right audience is reached. It incorporates advanced algorithms that push event notifications to users based on their preferences, past attendances, and academic interests.

RESOURCE REPOSITORY

Provides students with a comprehensive database of academic resources, including reputable journals, conferences, and workshops, while filtering out discontinued or predatory sources.

SUPERVISOR MATCHING

Facilitates students in their search for suitable academic supervisors, ensuring compatibility and fostering effective mentor-mentee relationships.

COLLABORATIVE GRANT

Identify and recommend grants that synergize the goals and expertise of both academia and industry. Allows universities and researchers to showcase their ongoing projects and research, inviting collaborations and potential funding opportunities.
