

WeCan

WeCan is an one-stop solution where compassion meets affordability. Rescue surplus food from local restaurants, cafes, and markets at discounted prices, discover recommendations to repurpose surplus food, connect with nearby food banks to share the goodness based on Machine Learning and Artificial Intelligence.

Objectives

- To provide a platform for Malaysians to buy foods and products close to expiration which are still safe to eat and offered at with a deep discount.

Cheaper food

Healthier food

Convenient

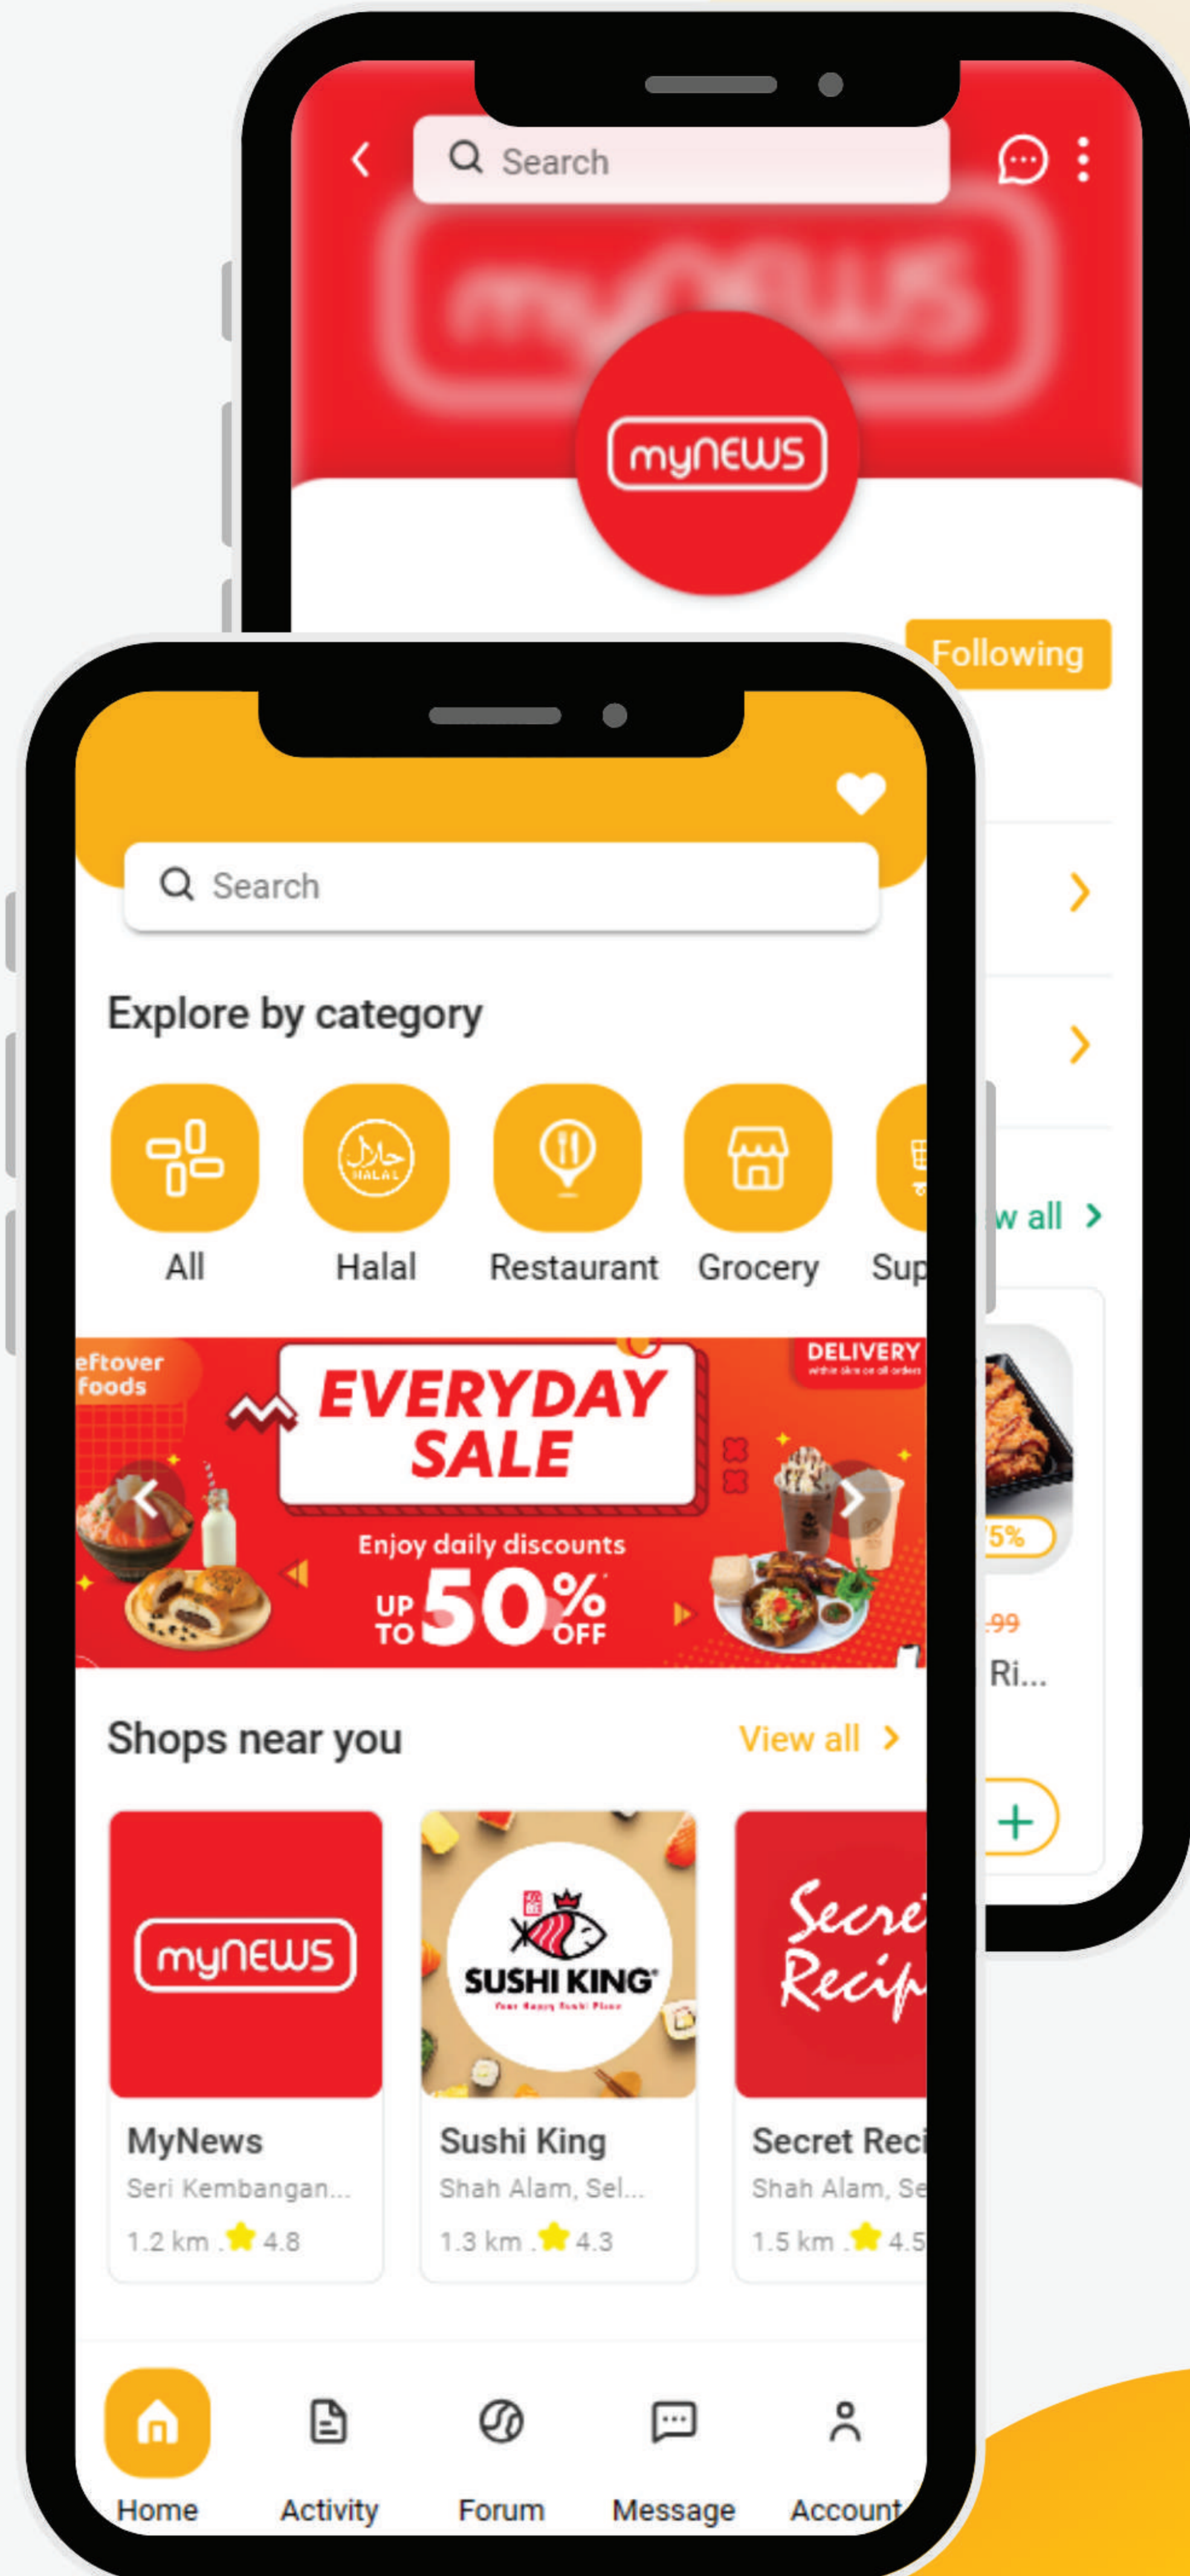

- To prevent food waste by providing the restaurant, convenient stores and supermarket to sell their leftover food.

Reduce food waste

Recover sunk costs

We can't save the world, but we can provide you the cheapest and easiest way to buy food
